Serving Our Community through working in Partnership

EF-153 (v) MFF parking spaces

With the village shop and café nearing completion this summer, the council need to agree the size and number of specialist parking bays ready for when the shop are at that stage of their project.

MFF working group were consulted and would to present to Estates and Facilities the following:

- the majority of bays should be 2.5m
- add parent/child bays close to the Village Hall x4
- add disabled bays close to the shop x2
- keep all the existing disabled bays; 2 by Therapy Garden and 4 by village hall
- design similar to the ones already present

Matters for consideration:

- i. Does the committee agree with the sizing of the bays?
- ii. Does the committee agree to the amount of specialist spaces recommended?
