

Normandy Parish Council

Serving Our Community through working in Partnership

EF-155 Sustainable travel

Cycle racks

A resident has asked if the council would consider supplying bike stands in the village. The prices range from £40-£200 per bar. There is no budget allocation for cycle stands, examples include:

<https://www.thebikestoragecompany.co.uk/product/the-sheffield-cycle-stand-galvanised/>

[Cycle Stand -Sheffield- recommended by the National Cycling Association | Barriers Direct](#)

[Sheffield Bike Hoop | Free Next Day Delivery \(theworkplacedepot.co.uk\)](#)

[Sheffield Stand – Cycle Works \(cycle-works.com\)](#)

The request aligns to the council's strategic approach to support the borough's climate change action plan, specifically in relation to encouraging active travel. The request is for stands at Normandy Common playgrounds near the Guildford Road car park for those transferring to the Kite, especially on train strike days.

Matters for consideration:

Would the Committee like to install bike stands?

If so, how does it propose the fund them?

Local cycle and walking routes

A resident has requested information for local walks and cycle routes to be promoted by the parish council.

Matters for consideration:

Would the Committee like to action this request?

If so, how and is there the capacity to do so?
