

## **C25-029(b) SCC Road Rangers**

The council have an opportunity to have some support from Surrey County Council Road Rangers as part of their spring clean. Some suggested tasks from them include

- Railings and bollards cleaned and painted
- Standard height sign cleaning and small-scale repairs
- Drainage channels cleaned
- Vegetation cutback
- Fly posting removal
- Grass edging to footpaths

Cllr Witham has offered to put in request(s) to SCC road rangers if there were any specific work the council would like to be done.

Cllr Mitchell has made some recommendations on possible options.

### **Recommendations from Cllr Mitchell:**

Clearing drains along roadsides to improve drainage and reduce risks of flooding; examples include the drain diagonally opposite the Allotments which experienced severe flooding last winter

Clearing of culverted drains under the roads in Normandy, specifically those that enter NPC land

A trim around crossing from the bottom common car park to session music to improve visibility

### **Matters for consideration:**

1. Does the council agree with the suggested work from Cllr Mitchell.
2. Is there any further work that the council would like to request
