

		<p>describe either of these two scenarios and looks to be more "backland development" thus not infilling.</p> <p>Village Settlement: Whether it is within the village is a matter of planning judgement but the site is outside the identified settlement boundaries (which takes on greater relevance if the revised NPPF is adopted as it stands)</p> <p>Flooding: The issue of surface water flood risk is significant at the site and has not been addressed in any of the documents.</p> <p>Traffic: Northern visibility splay of 23m is very limited and have concerns given this has been the site of a serious accident.</p> <p>Refuse Collection: We understand that refuse has previously been collected from Guildford Road rather than Westwood Lane as there has been no pavement on that side of the Lane. Due to the school close by, these footpaths are heavily trafficked so finding a location for the bins which doesn't impact the footpath would be desirable.</p>
26/P/00184	The Pines, Green Lane East, Normandy	<p>Application under Section 73 of the Town and Country Planning Act 1990 to remove conditions 1 (permits the use of the Site for three years) and 2 (Site restoration requirements) to allow a non-personal, permanent occupation of the gypsy pitch forming the subject of the application of planning permission 21/P/00456 allowed at appeal for permanent occupation of the gypsy pitch on the site.</p> <p>RESOLVED - Compliance with Conditions: As site occupation has continued past the temporary 3 year period, NPC is disappointed that there is no references on why compliance with conditions as currently set could not be adhered to.</p> <p>Grey Belt: NPC strongly dispute that the site is "grey belt" as there has been no detailed analysis of Green Belt purposes or Footnote 7 characteristics which would be an important consideration. We take the view that the site prevents the urban sprawl of Ash/Tongham urban area (purpose a) where potential development of Manor Farm Tongham close by would be of relevance.</p> <p>Sustainability: 5.25 in the Planning Statement states that PPG13 defined 2km as an acceptable walking distance. That is not correct - PPG13 states in para 74 that "walking is the most important mode of travel at the local level and offers the greatest potential to replace short car trips, particularly under two kilometres". It did not set "acceptable" distances of any form. Moreover there are no regular bus journeys close by to the site. Overall we believe that sustainability does need to be reviewed given changes in transport guidance and bus routes.</p>

26/P/00282	Land at Vendure and Jayarr, Westwood Lane, Wanborough, Guildford, GU3 2JJ	Application under section 73 of the Town and Country Planning Act 1990 (as amended) for the variation of condition 2 (drawing numbers) of planning permission 22/P/01208, approved 25/10/2023 for a Variation of Condition 2 (drawing numbers) of planning permission 20/P/02132 approved 20/04/2022 for the erection of three x three bedroom dwellings and associated access and parking, following demolition of outbuilding. Amended plans to seek permission to remove the soakaways associated with Plots 2 and 3 and to relocate bike storage associated with Plot 1, to make amendments in accordance with revised plans and elevations to SK-07B and SK-08B. RESOLVED - There is no evidence presented on how the revised plans address surface water flooding, which remains an issue, and hence why the conditions relating to soakaways needs to be varied.
