

EF26-009 Conservation Working Group

Friday 23rd – Woodland Walk. The primary aim of this walk is to talk about the Woodland management plan. We will start at the football pavilion, walk up through the woods to the western hemlock woods beyond the cricket pitch, around there and back. Please do join if you can.

Please can I have support on Friday 17th July with the stall in the Market to help promote the work of the Conservation Volunteers, start the conversation on the Woodland Management plan, sign people up for Butterfly Counts and possibly sell cakes!

I am looking for support from other volunteers too and will ask Friends of Normandy Wildlife if anyone can help. Might have Leila to help and see if she can persuade some other friends.
